BRAVER TECHNOLOGY SOLUTIONS

PRESS RELEASE

BRAVER TECHNOLOGY ADDS VCIO ROLE TO ITS EXTENSIVE LIST OF SERVICES.

Costa joins Braver as new vCIO.

Taunton, MA December 2021: Braver Technology Solutions, a leading managed technology services provider, announced that the company has hired Dan Costa to serve as a Virtual CIO (Virtual Chief Information Officer) for its clients to offer a greater level of strategic business guidance.

As vCIO, Costa will support and consult with clients to assist in addressing technology challenges and facilitate improved strategic planning.

"*In this position, Dan will assist in maintaining our clients IT infrastructure and developing a more focused technology roadmap*," said Kenny Rounds, CEO of Braver. "*Dan brings a wealth of experience and knowledge which will only add more value to the managed services we provide, helping clients easily identify new ways to utilize emerging technologies, increase productivity, and enhance and grow their business*.

"*I am looking forward to really getting to know our clients and working closely with them, strategizing and aligning their technology with their business goals to drive further success for both our organizations*." says Dan, who joined the Braver team in December 2021.

Braver Technology is based in Taunton, MA with branches located in Boston and Providence, RI. Braver is staffed by expert technicians who provide managed IT services at cost-effective prices. With over three decades of experience in leading IT services, Braver Technology is the trusted advisor to most local businesses across many different industries. Braver 24/7 IT monitoring, maintenance, and proactive solutions will help you grow your business, improve productivity, and leave your technology worries behind.

The only worry you will have will be remembering your password. #wemakeitwork
