BRAVER TECHNOLOGY SOLUTIONS

PRESS RELEASE

Braver Technology Secures Elite Placement on CRN's MSP 500 List 2024, Spotlighting Outstanding Achievements in Managed IT Services and Cybersecurity Excellence.

Annual CRN MSP 500 Highlights Top-Tier Businesses Fostering Growth and Innovation in the Industry.

Taunton, MA February 12, 2023: Braver Technology Solutions, a New Charter Technologies company, proudly announces its inclusion in the CRN® MSP 500 list for 2024, specifically recognized in the Elite 150 category. This prestigious acknowledgment underlines our unwavering commitment to delivering exceptional managed IT services, cybersecurity, and cutting-edge technology solutions.

CRN's MSP 500 list serves as a comprehensive guide, spotlighting the top Managed Service Providers (MSPs) in North America. Divided into three sections, the list recognizes MSP Pioneer 250, focusing on companies with business models tailored for SMBs; MSP Elite 150, acknowledging large, data center-focused MSPs with a robust mix of on- and off-premises services; and Managed Security 100, honoring MSPs primarily focused on off-premises and cloud-based security services.

Kenny Rounds, CEO of Braver Technology Solutions, expressed gratitude for the recognition, stating, "*We are honored to be recognized by CRN as part of the MSP 500 list in the Elite 150 category for 2024. This achievement reflects our commitment to delivering exceptional managed IT services, cybersecurity, and technology solutions. At Braver Technology, we strive to empower businesses with cutting-edge services, ensuring efficiency, adaptability, and optimal return on investment. This acknowledgment reaffirms our dedication to driving growth and innovation in the industry, and we look forward to continuing to make IT work for our clients.*"

The MSP 500 list aims to showcase and celebrate MSPs driving growth and innovation in the industry.

These service providers not only enable businesses to harness complex technologies but also contribute to maintaining a strong focus on core business goals without stretching financial resources.

Categorized based on business models and areas of expertise, the list helps end-users find the right partners to meet their specific needs and challenges in the rapidly evolving technology landscape.

Jennifer Follett, VP of US Content and Executive Editor at CRN, emphasized the significance of managed services, stating, *"Managed services provide a route for businesses of all sizes to maintain efficiency and adaptability throughout their growth journey. The solution providers featured in our 2024 MSP 500 list are introducing cutting-edge managed services portfolios to the market, enabling their clients to achieve success by optimizing their IT budgets. This allows businesses to allocate resources strategically, concentrating on mission-critical tasks that drive future success."*

The MSP 500 list will be showcased in the February 2024 issue of CRN and online at www.crn.com/msp500.
